

Psychology

Baccalaureate Transfer Program

Psychology is the scientific study of human behavior and mental process. In the study of psychology students learn not only useful factual information about their fellow human beings but also important principles of scientific methodology and critical thinking. At DACC students can take a series of courses that will provide a solid foundation for more advanced work in the field. A background in psychology can be a valuable asset far beyond the field of study itself. The kinds of knowledge and skill acquired in psychology apply to all other fields.

Program Specific Courses Include:

- Introduction to Psychology
- Child Development
- Industrial Psychology
- Human Development
- Abnormal Psychology
- Social Psychology
- Personality
- Social Psychology of Aging

Job/Employment Information:

Positions You are Trained for: Psychology provides direct employment opportunities and a strong foundation for other careers. Direct opportunities usually require an advanced degree. Independent practice as a Professional Clinical, Counseling, and/or School Psychologist requires a Master or Doctorate level education and a license. Most psychologists find employment in college teaching or clinical settings. Related opportunities exist in:

- Business
- Education
- Government
- Law
- Research
- Social Work
